JAISON JAIDEEP LOBO

Senior Software Engineer

Bangalore, India | Jaison3666@gmail.com | +91-7624851480 | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4 years and 4 months of experience building enterprise applications, REST APIs, and microservices using Java and Spring Boot. Experienced in Kafka, MongoDB, Hibernate, AWS, GCP, Docker, CI/CD, automated testing, and production support. Contributed to a customer upselling feature associated with approximately $800K in revenue within two months. Experienced in developing agentic AI workflows that orchestrate multi-step tasks, automate order-routing variations, and reduce manual intervention.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, PHP; Kotlin (basic), Python (basic)
Backend: Spring Boot, Spring MVC, Hibernate, REST APIs, Microservices, SOAP, GraphQL, Micronaut, Maven
Databases: MongoDB, MySQL, PostgreSQL, Oracle, SQL Server, Cassandra, NoSQL
Messaging: Apache Kafka, Event-Driven Architecture
Cloud/DevOps: AWS, GCP, Firebase, Docker, Jenkins, Azure DevOps, CI/CD
Testing/Monitoring: JUnit, Cucumber, Integration Testing, Kibana, Production Debugging, Jest
Agentic AI Tools: GitHub Copilot, Claude, ChatGPT, Gemini
Other: Angular, React.js, React Native, Git, Postman, OOP, Design Patterns, DSA, System Design, Agile, Scrum, SDLC

PROFESSIONAL EXPERIENCE

Best Buy India (BBY India) **Nov 2024 – Present**
Software Engineer I *India*

- Develop **backend REST APIs** and services using **Java, Spring Boot, Kafka, and MongoDB** within a **microservices architecture**; also build responsive **React** interfaces to improve user experience.
- Contribute to the **Worksite platform used by 8,500+ delivery agents**, supporting push notifications, Twilio calling, product and warranty upselling, damage reporting and refunds, and Emergency SOS.
- Designed and integrated **agentic AI workflows** into a core retail order-fulfillment engine using **AWS Bedrock and Claude APIs**, automating order-routing variations and reducing manual intervention by **40%**.
- Contribute to a **repair-service feature** that helps delivery agents resolve customer issues, improve customer experience, and support additional revenue opportunities.
- Improve software quality through **JUnit unit testing** and **Cucumber integration testing**; work with **GCP, Firebase, CI/CD**, production debugging, and operational monitoring.

Infinite Computer Solutions **Nov 2021 – Oct 2024**
Software Engineer *India*

- Contributed to the **ND MMIS healthcare platform** using **Java, Spring Boot, Angular, Hibernate, REST APIs, AWS, Docker, and microservices**.
- Delivered **backend enhancements, defect fixes, and change requests**, supporting production troubleshooting and issue resolution.
- Collaborated with **Agile teams** on sprint planning, daily stand-ups, deployments, and technical troubleshooting.
- Completed a **10-month internship** at Infinite Computer Solutions from November 2021 to June 2022, receiving training in **full-stack development, problem-solving, and Agile practices**, including sprint planning, daily stand-ups, and retrospectives.

SELECTED PROJECTS

Worksite Order Fulfillment Platform: Developed backend APIs and platform capabilities using Java, Spring Boot, Kafka, MongoDB, GCP, Firebase, and microservices to support delivery-agent workflows and automated testing.

ND MMIS Healthcare Platform: Contributed backend enhancements and production support for an enterprise Medicaid management platform using Java, Spring Boot, Angular, Hibernate, REST APIs, AWS, Docker, and microservices.

Neerude Parish Project: Built a full-stack web application using Angular, Spring Boot, Java, MySQL, and REST APIs to support social work and local community initiatives.

AIET ERP Project: Developed a college examination system as a final-year project using PHP, MySQL, JavaScript, AJAX, Bootstrap, and CSS.

EDUCATION

Alva's Institute of Engineering and Technology, Karnataka 2018 – 2022
Bachelor of Engineering (B.E.) in Computer Science and Engineering CGPA: 8.4/10

Alva's Pre-University College, Moodbidri 2016 – 2018
Physics, Chemistry, Mathematics, and Computer Science Percentage: 70.88%

ACHIEVEMENTS AND CERTIFICATIONS

- Solved data structures and algorithms problems on LeetCode and GeeksforGeeks; certifications in Java, SQL, Git, Kafka, AWS, Angular, React, HTML, and CSS.
- Led ETH hackathons and engineering project initiatives during academic studies; implemented a machine-learning-based push-up counter.
